

OUR APPLE VARIETIES 2022

AMOROSA

Winter fruit, keeps to store. It is good to eat as such, good as a household apple as well.

ASFARI

Has a sweet and sour taste, very good to eat and is also suitable for desserts.

DISCOVERY

Very popular autumn fruit. It has a slightly sweeter taste that is good to eat as such but is also suitable for baking, salads and desserts.

GENEVA EARLY

As the name suggests, this is a summer fruit that ripens already in August. Sweet and sour taste, good to eat as such.

LOBO

Winter fruit, "Christmas apple" that is good to eat as such but is not so sour. A variety that is part of our own apple juice.

RAJKA

Winter fruit with good shelf life. Good "Christmas apple", intense and sweet taste,

best eaten as is. This variety gives tasty juice.

RUBIN

Winter fruit. New variety, first harvest 2021.

RUBINOLA

The most popular winter fruit, good for storage. Sweet and sour and good to eat, suitable for desserts and pastries. It has extra high vitamin C values and gives the very best apple must.

SANTANA

Winter fruit. Less allergenic variety.

TOBIAS

Late autumn fruit that lasts well in stock, and is suitable as an eating and household apple. This variety is sold in stores on Kimito Island and it is also used for must.

WINTER CINNAMON

Late autumn fruit, a cross between Lobo and red cinnamon. Good to eat as it is, suitable as a household apple. Also sold on Kimito Island.
